

Psyche Schema: The Complete Character Creation Guide (Canon-Accurate)

This document contains the entire character creation system, revised and expanded to be fully compliant with the Ætherium Codex.

Part I: Character Discovery Guide (Player-Facing)

Welcome! This guide will help you bring your character to life. Don't worry about game mechanics or specific lore for now. Just focus on your character's story, personality, and what drives them.

Section 1: The Essentials

1. **Name & Alias:** What is your character's name? Do they have any other names they go by?
2. **Appearance:** Paint a picture of your character. What do they look like? What do they typically wear?
3. **The Elevator Pitch:** In a single, punchy sentence, who is your character?

Section 2: The Inner World

1. **The Driving Force:** What is the single most important thing to your character? What gets them out of bed in the morning?
2. **The Anchor:** When chaos erupts, what is the one thing—a belief, a memory, a code—that they cling to?
3. **The Social Strategy:** How do they typically deal with other people? (e.g., leader, lone wolf, manipulator, peacemaker).
4. **The Weight of the Past:** What is their relationship with their own history? A source of strength, a deep wound, or a cage to escape?
5. **The Sense of Self:** When they look in the mirror, who do they see? Are they proud, ashamed, critical?

Section 3: The Worldview

1. **Justice & Law:** Which is more important: the established laws and rules, or the spirit and intent behind them?
2. **Conflict & Growth:** Do they believe that struggle and conflict are necessary for growth, or are they a destructive force to be avoided?
3. **Order & Chaos:** Which is more dangerous: a world of absolute, suffocating order, or a world of complete, untamed freedom?
4. **Nature & Civilization:** Do they feel more at home in a bustling city or in the untamed

wilderness?

5. **Magic & The Unknown:** Do they view forces like magic as a science to be studied or as an art to be felt?
6. **Knowledge & Truth:** When faced with a mystery, which is more valuable: the raw, unfiltered data and facts, or the story and context that gives those facts meaning?
7. **Fate & Destiny:** Do you believe your future is a set path you are destined to walk, or is it a blank page that you write yourself through your own choices and conquests?

Section 4: The Heart & History

1. **The Cornerstone of Connection:** What is the single most important quality they look for in any relationship?
2. **The Defining Bond:** Describe the most important relationship in your character's life.
3. **The Ghost:** Describe a relationship that has ended, but still haunts them.
4. **The Origin:** Briefly, what is your character's backstory?
5. **The Defining Moment:** Describe the single moment from their past that cemented one of their core beliefs.

Section 5: The Toolkit

1. **Signature Skill:** What is your character incredibly good at?
2. **Ace Up the Sleeve:** What is a secondary or less obvious skill they possess?
3. **Kryptonite:** What is their greatest weakness (physical, emotional, or moral)?
4. **Method of Operation:** In a conflict, what is their go-to strategy and what tools do they favor?

- **VESTUS (Knowledge) - Analysis of Question 14 (NEW):**
 - **Veritas (Lore/Context):** A high score for those who value the story, wisdom, and interpretation behind the facts.
 - **Gnosis (Raw Data):** A high score for those who value objective, unfiltered information above all else.
- **THE SELÛNÆ (Fate) - Analysis of Question 15 (NEW):**
 - A character who believes in a **set path** will have high scores in **Maiden** (their potential is inevitable) and **Crone** (the consequences are already understood).
 - A character who believes they **forge their own destiny** will score high in **Wench** (they conquer what they want) and **Hag** (the consequences are what they make them).
 - Scores for **Mother** (stable bonds) and **Strumpet** (shifting bonds) are inferred from their relationship history (**Questions 17 & 18**).
- **DAEDALON (Crafting) - Inferred from Q4 & Q21:** Score The Artificer (love of the process) vs. The Crucible (focus on the result).
- **VALORIN (Commerce) - Inferred from Q6 & Morality:** Score Mercatus (fair, mutual benefit) vs. Credo (ruthless, predatory profit).
- **THE HEART'S COMPASS (Love) - Analysis of Q16, Q17, & Q18:**
 - Use **Question 16** to identify their single **highest scoring** concept of love.
 - Use the bonds described in **Questions 17 & 18** to assign scores to the other eight concepts, reflecting their experiences with passion, friendship, duty, etc.
